Mathematics by Enquiry: Project Plan

Ragav Srinivasan

September 20, 2026

Project Title: Nonlinear Dynamics in Computer Graphics: An exploration of Reaction Diffusion Systems in Computer Graphics.

Overview: The project overview should present the problem or aims of the project. Not detail the entire thesis.

What I'll do: explain your thesis here.

Original Contribution: don't know what this is

Required Reading

- Nonlinear Dynamics
- Procedural Generation
-

Sources

- source 1
- source 2
- source 3

Timeline 8 hours per week, B1 and B2 represent the break
W8 [8h]: Draft Project Plan
B1 [8h]: Required Reading and Literature Review
B2 [8h]: Introduction of the topic
W9 [8h]: Feedback
W10 [8h]: Write project
W11 [8h]: Feedback
W12 [8h]: Finish project
W13 [8h]: Proofread, Final touches and polishing

Plan Revisions: The project plan is expected to be revised at frequent intervals. Updates will be much more frequent during early stages of research and writing as I'm scoping ideas for my project, however once I've been able to get a good idea of what my project will be like, the project plan will see less updates.
